COLLEGE DIARIES

The college diaries

In halls of learning, friendships bloom
Late-night study sessions, caffeine in hand,
Memories made, a college life so grand.
Professors inspire, knowledge they impart,
Guiding us forward, igniting a spark,
Exams and essays, challenges we face,
Growing and learning at our own pace.
Clubs and events, a vibrant scene,
From sports to arts, a place to dream
Campus life buzzing, energy in the air,
Finding ourselves, discovering what's rare.
College years, a journey we embrace,
Transforming minds, finding our place.
Forever bonded, a community strong,
In our college, where we truly belong.

I LOVE PHARMACY

In the aisles where remedies reside,
Beneath the shelves where secrets hide,
A pharmacist stands, both calm and wise,
With knowledge deep, and kind, clear eyes.

From dawn till dusk, through day and night,
They ease the pain, restore the light, with potions,
Pills, and tender care, for those in need,
They're always there.

So here's to those who daily toil,
Who mix compassion with the oil?
Of healing hands and minds so bright,
The silent heroes in our fight.

Pharmacist

In the pharmacies quiet aisle,
Healing hands and knowing smile.
Bottles lined up, neat and clear,
Each one holds a cure, so dear.

Pills and potions, powders fine,
Chemistry's art, a healing sign.
Advice given with patient care,
For every ailment, something there.

From apothecary's ancient lore,
To modern science, ever more.
Pharmacy, a trusted friend,
Where health and hope, always blend.

PHARMACY MY LIFE

In a realm of potions and pills,
Where science and care fulfill,
Pharmacy, a magical art,
Bringing healing from the heart.
With knowledge and precision,
Pharmacists make their decision,
Guiding patients on their way,
To brighter, healthier days.
From compounding to advice,
In this realm, they're oh so nice,
Dispensing hope with every dose,
Pharmacy's magic truly shows.

HUMANS - YOU'RE KILLING ME

I am the Earth,
Mother of them all.
I'm getting hotter and hotter each day.
I just want to lay and rest.
Let me rest, I'm dying.

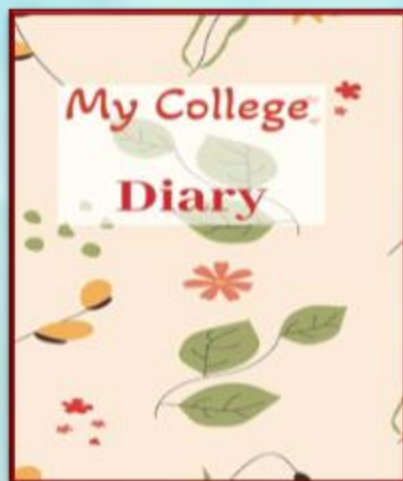

My babies' trees are dying,
The ice is melting,
The sun is burning my skin,
My babies my life,
My atmosphere is cracking.

You cruel people,
You choke me to death.
Your chemicals are killing
What I have tried to raise.
How is life supposed to carry on....?
Make us live and breathe?

My poor trees!
Just think and feel how they feel,
Why are you putting rubbish on my skin?
STOP ... OH, STOP it now!

You're giving me a disease,
And it's burning to my core.
Get in my mind, come on,
Look deep down and find
My heart is slowly stopping.
You're killing me,
You're killing me,
You're killing me.

JUST A DREAM....

Sun was setting, dripping more into the sea,
Waves were arriving more to the shore, &
It was feeling like they are talking with me ...
Birds were returning home with pleasant chirps,
Wind was playing with my hairs,
giving me goosebumps!!

I started walking having no idea about destiny
& reached on a road only filled with
Peace & harmony

Enjoying my own company, with a blank mind
& a soft smile, mesmerising ~~oo~~ the beauty of
PINE trees that were just blind

I was walking through & through till a beam
entered my window & I realised
It was just a dream...

I got up & just stared in the mirror,

Is it me with that ethereal glow?

she said, "stop being this much lonely,

maybe someone loves you more than YOU KNOW!"

Then I realised, I was getting at my worst

without noticing my Inner SOUL,

so just decided to outset the Journey of

finding myself FIRST!

अंतहीन

आपण अंतहीन संघर्षात कार्यरत राहील पाहिजे,
जर आपल्या अंतहीन इच्छा आणि अंतहीन स्वप्न असतील तर.
आपल्याला आहे त्या परीस्थितीवर समाधानी राहून चालणार नाही
आपण सर्वकाही जिंकण्याचा प्रयत्न केला पाहिजे
कष्टाने अन जिद्दीने!
आपण खोलवर ज्ञानाला कवटाळल पाहिजे
जोपर्यंत त्याचा अंतस्त तळ गाठत नाही.
दिवसामागून दिवस जातील काहीच नसण्यापासून ते
सर्वकाही असण्यापर्यंतचा प्रवास आपण जिद्दीने पूर्ण करू
त्यासाठी हिमतीने उतरू नियतीने आखलेल्या या पूर्वनियोजित आखाड्यात
आणि दंड थोपटून गर्भगळीत करू त्या नियतीलाही
आपण जे जपलयस ते देहाच लक्तर सुद्धा नाशवंत आहे
त्याच जळन जितक शाश्वत तितकच आपलं जिंकन सुद्धा
पण त्याआधी आपल्याला उठाव लागेल लढाव लागेल आपल्या
जीवनातल्या काळोखाच्या विरोधात. सूर्य आपल्या सोबत नसेल
आपण काजव्यांना मित्र करू
विचारांचं ओझ डोक्यावर घेऊन नुसतच अंतर्मुख होऊन
बसून चालणार नाही अस केल तर आपली स्वप्न
आपल्यासाठी कायमचीच अधुरी राहतील.
जन्मापासून ते मृत्युपर्यंत
अंतहीन उदय अंतहीन अस्त अंतहीन सुख: अंतहीन दुःख
अंतहीन प्रेम अंतहीन द्वेष अंतहीन स्वप्न अंतहीन कष्ट
आपला देह सोडून बाकी सर्व काही अंतहीन !!

मन नावाचा कोपरा . . .

माणूस नावाच्या सर्जीवान
मन नावाचा कोपरा वसतो
असंख्य गोष्टींचा दडलेला येथे
खाजिना असतो
काही स्वप्न पूर्ण झाल्याचा
आनंद असतो तर,
काही स्वप्न अपूर्ण असल्याचा
गंध येथे दखळतो
आढवणीचा खेळ रोज चालू
असतो याच खेळात शब्द ! लाच
मात्र हरवून घेतो
पर्वा वसते कुठाला याची
जो- तो आपला गरज
आगत असतो
मन नावाचा कोपरा मात्र आशेच्या
हिंदोळ्यावर जगत वसतो
समजून घेण्यास कुठेण असला
तरी अशक्य मात्र नक्कीच
जसतो .

AYURVEDA: ANCIENT SCIENCE

- **What is Ayurveda?**

Ayurveda is an alternative medicine system with historical roots in the Indian subcontinent. It is heavily practiced in India and Nepal, where around 80% of the population report using Ayurveda. The theory and practice of Ayurveda is pseudoscientific.

- **Principles of Ayurveda**

- According to Ayurveda, health is defined as the balanced state of tridoshas, that is Vata, Pitta and Kapha in the body.
- This balanced state is responsible for the normal physiology of the body and health conditions of the mind.
 - Ayurveda is based on the three fundamental principles:
 1. Panchamahabhuta Siddhanta
 2. Tridosha Siddhanta
 3. Guna - Rasa - Virya - Vipaka - Prabhav – Siddhanta

- **History of Ayurveda**

- The evolution of the Indian art of healing and living a healthy life comes from the four Vedas namely: Rig Veda, Sama Veda, Yajur Veda and Atharva Veda.
- Ayurveda attained a state of reverence and is classified as one of the Upa-Vedas - a subsection attached to the Atharva Veda.

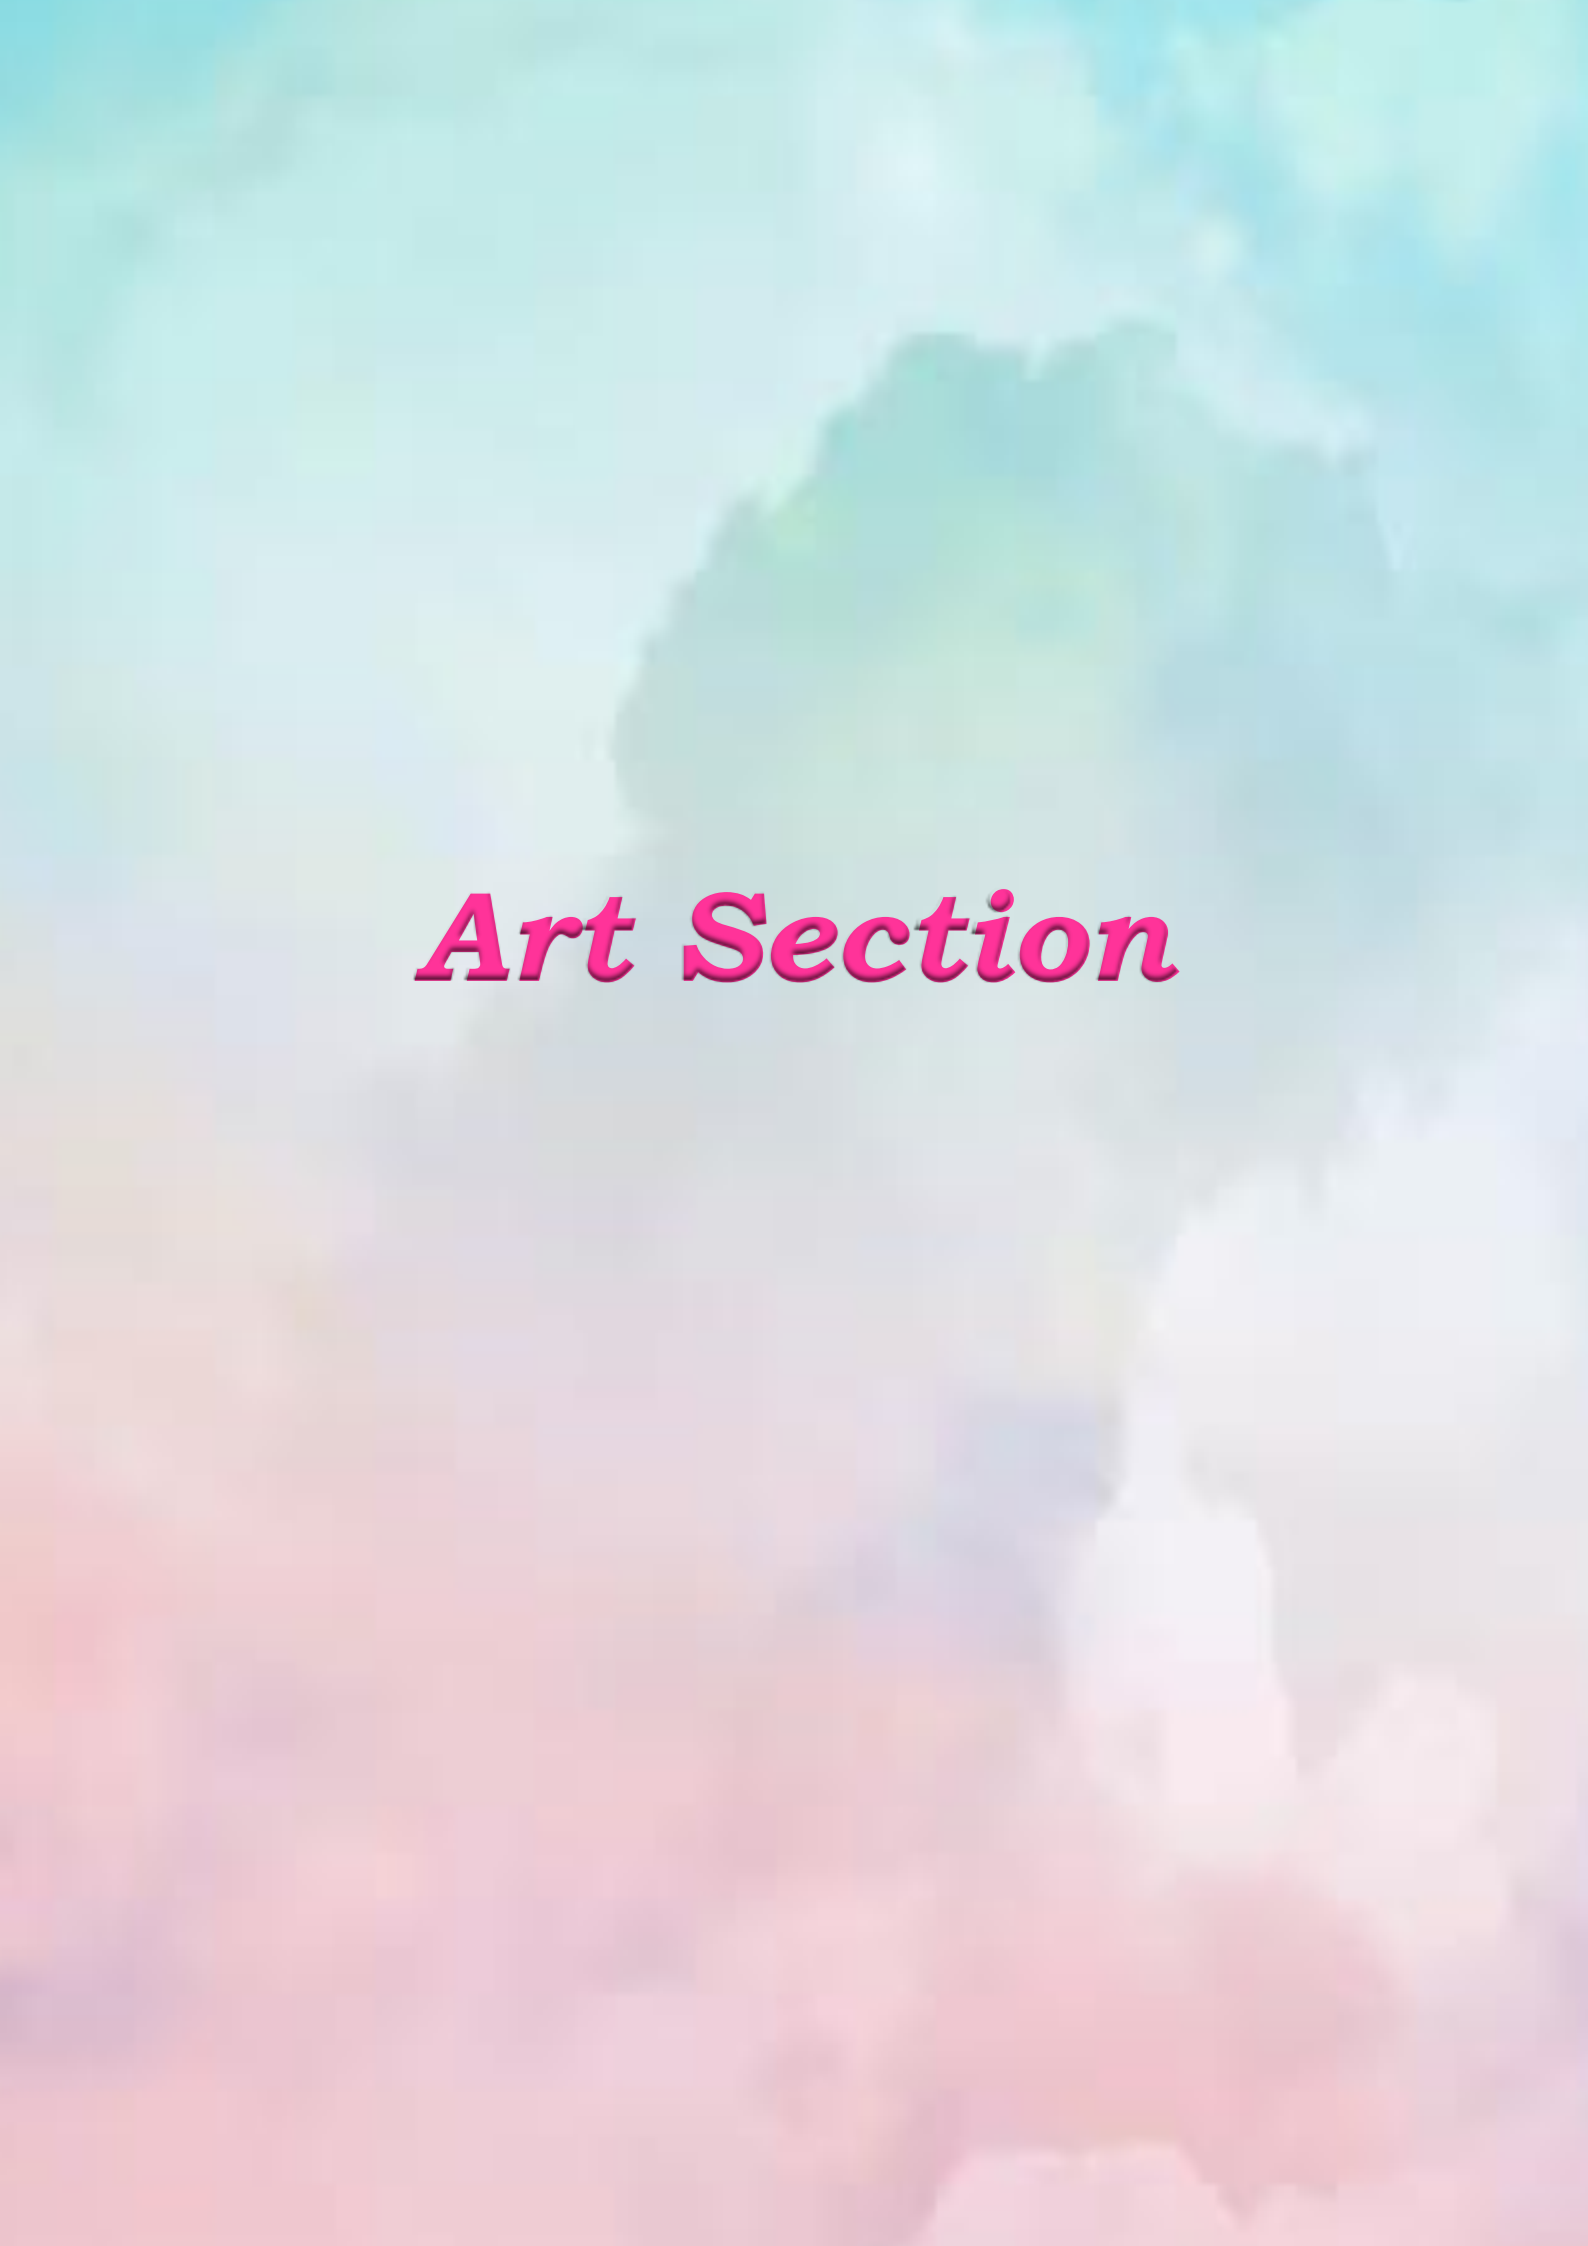

- The origin of Ayurveda could be roughly traced back to 5000 years old.

- The Atharva Veda contains not only the magic spells and the occult sciences but also the Ayurveda that deals with the diseases, injuries, fertility, sanity and health.

The knowledge we have now is by three surviving texts of Charaka, Sushruta and Vaghbata.

- **The benefits of Ayurveda**

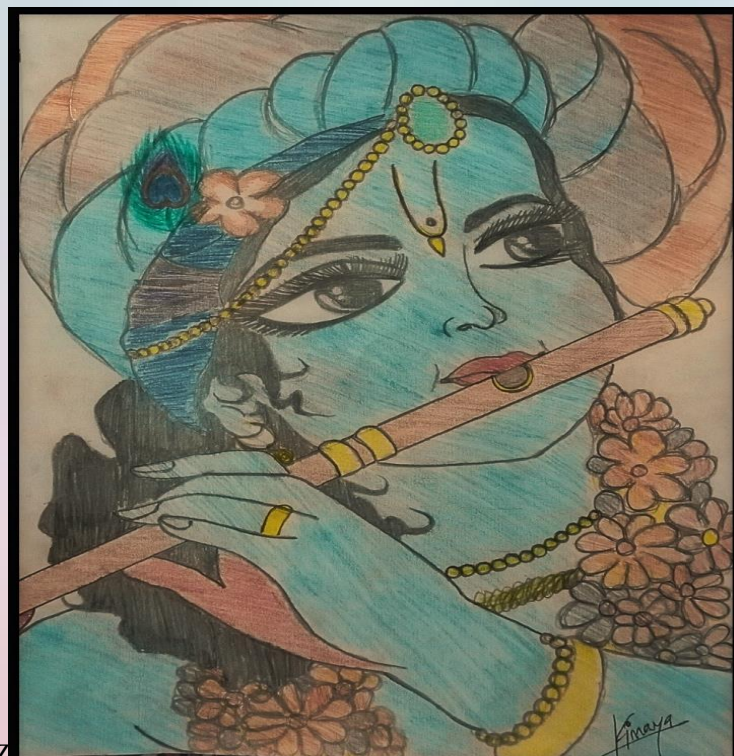

- An Ayurveda originated in India about five thousand years ago. Ayurveda is considered to have evolved from Atharva Veda, one of the four Vedas. The objective is to give the feeling of wellness, physically, mentally and spiritually. The basic concepts and fundamental principles aim at establishing such a condition through correct and thorough knowledge of healthy living.
- A person can function normally only when his Doshas, Dhatus, Malas and Agni are in a state of equilibrium. A balance in the Trigunas helps to keep the mind clear of ill thoughts, fear and anger.
- An Ayurvedic approach to an illness is holistic and therefore after an Ayurvedic treatment a person will find an improvement in their physical, mental and psychological conditions.
 - The ingredients used in Ayurvedic medicines are mostly derived from herbs, plants, flowers, fruits etc.
