From the Desk of Management

Hon. Chairman

Our aim is not to just provide just higher Education, but one that is value based. The World has become a very competitive Place But our aim is not to prepare students To merely compete with others but to discover Themselves first. True to the Indian Philosophy The more one knows about oneself the letter One can compete with others.

Shri. Kishore R. Tawde

Hon. Secretary

It is a great pleasure to interact with you, through our magazine. The foundation of Sarojini College of Pharmacy was laid under the R. L. Tawde Foundation, with a view of fulfilling the academic needs of the pharmacy professionals. We aim at providing best quality education to our pupils. We have well qualified and dedicated staff members who look after all round development of each and every student. We also plan to develop entrepreneurial skills in students so that they would drive the spirit of growth of our economy and would be able to generate employment opportunities for other qualified and skilled people. The students of this Institute enjoy their learning experience; we nurture them and act as their guardians so that they get a home away from home. They play; they enjoy and most importantly learn all that is vital to shape their careers.

Mrs. Shobha K. Tawde

FROM THE DESK OF PRINCIPAL

Dear Students, Faculty, Staff, and Visitors, Welcome to Sarojini College of Pharmacy, where excellence meets opportunity, and where every individual is empowered to achieve their fullest potential. As the principal of this esteemed institution, it gives me immense pleasure to extend a warm greeting to all who are associated with our college. College stands as a beacon of knowledge, fostering a culture of academic excellence, innovation, and holistic development. Since its inception, our college has been committed to providing quality education that not only imparts knowledge but also instils values, nurtures talents, and shapes future leaders. Our dedicated faculty members, who are experts in their respective fields, go above and beyond to inspire and mentor students, guiding them towards intellectual growth and personal development. Our curriculum is designed to be dynamic and relevant, incorporating the latest advancements in various disciplines while also emphasizing the importance of interdisciplinary learning. Additionally, our college places great emphasis on co-curricular and extracurricular activities, providing students with ample opportunities to explore their interests, hone their talents, and develop essential life skills outside the classroom. We strive to be a catalyst for positive change, both within our campus and in society at large, by fostering a culture of service, leadership, and compassion. I invite you to explore our college, our programs, facilities, and achievements. Together, let us embark on a journey of discovery, growth, and transformation. Warm regards,

Dr. V. C. Yeligar (Principal)

Editorial Message

Dear Reader's

On behalf of the editorial board, it is with great pride and sincere privilege that college has been published 1st edition of the college annual magazine. This magazine is a platform to exhibit the literacy skill and innovative ideas of teachers and students. The main purpose of the magazine 2019 is to inform, connect, inspire and entertain a diverse readership including faculty, alumni, student and parents by presenting an intimate and honest portrait of the college. the united efforts of the entire team and Sarojini College of pharmacy has made this year progressive by organizing guest lecture, seminar, workshop, industrial visit and social awareness campaigns. Additionally, our college has excelled in extracurricular activities and has shown supremacy in academics. We have tried our best to rope in bits and pieces of all these events in our magazine. We would like to express our gratitude and heartfelt thanks to our principal Dr. V. C Yeligar sir for his constant encouragement, support and guidance for bringing out this college magazine. We are also grateful to all faculty and student for extending their co-operation and contribution to make this effort a success. We would also like to give special thanks to Mr. Shailesh for designing and DTP work. We wish happy voyage to the readers of this magazine 2019. We are confident that it will satisfy the readers.

Opportunity

With doubt and dismay you are smitten
You think there's no chance for you, son?
Why, the best books haven't been written
The best race hasn't been run,
The best score hasn't been made yet,
The best song hasn't been sung,
The best tune hasn't been played yet,
Cheer up, for the world is young!
No chance? Why the world is just eager
For things that you ought to create
Its store of true wealth is still meagre
Its needs are incessant and great,
It yearns for more power and beauty
More laughter and love and romance,
More loyalty, labor and duty,
No chance – why there's nothing but chance!
For the best verse hasn't been rhymed yet,
The best house hasn't been planned,
The highest peak hasn't been climbed yet,
The mightiest rivers aren't spanned,
Don't worry and fret, faint hearted,
The chances have just begun,
For the Best jobs haven't been started,
The Best work hasn't been done

May you Always

May you always have...
Enough happiness to keep you sweet,
Enough trials to keep you strong,
Enough sorrow to keep you human,
Enough hope to keep you happy,
Enough failure to keep you humble,
Enough success to keep you eager,
Enough friends to give you comfort,
Enough wealth to meet your needs,
Enough enthusiasm to look forward,
Enough determination to make
Each day better than yesterday

“Shadows”

We run,
We run,
We cannot stand these shadows!
Give us the sun.
We were not made
For shade,
For heavy shade,
And narrow space of stifling air
That these white things have made.
We run,
Oh, God,
We run!
We must break through these shadows,
We must find the sun.

Brief about Pharmacy Council of India (PCI)

The Pharmacy Council of India (PCI) is a statutory body constituted under the Pharmacy Act, 1948. The Act was passed by the Parliament to make better provisions for the regulation of the profession and practice of pharmacy throughout the country.

❖ The main objectives of the PCI are

1. To prescribe minimum standard of education required for qualifying as a pharmacist i.e. framing of Education Regulations prescribing the conditions to be fulfilled by the institutions seeking approval of the PCI for imparting education in pharmacy.
2. To ensure uniform implementation of the educational standards throughout the country.
3. To approve the courses of study and examination for pharmacists i.e. approval of the academic training institutions providing pharmacy courses.
4. To withdraw approval, if the approved course of study or an approved examination does not continue to be in conformity with the educational standards prescribed by the PCI.
5. To approve qualifications granted outside the territories to which the Pharmacy Act extends i.e. the approval of foreign qualifications.
6. To maintain the Central Register of Pharmacists on the basis of data forwarded by the State Pharmacy Councils.

हिंदूंचा स्वाभिमान,
स्वराज्य हाच किर्तीमान,
बहुत जनांसी आधारु,
मलेछा आजही सुधारू
शिवाजी महाराज,
नामाने चढते आम्हा स्फुरण,
शिवतोरण आजही तारणहार ,
दुसरा कुठला आमचा जीर्णोद्धार?
शिवशंभू जोडगोळी,
हिंदुत्वाची मुहूर्तमेढ रोवली ,
दिग्विजयाची माला ओवली,
आम्हाला हिंच कहाणी भावली!
सागरावर राजांचा संचार,
हिंदमाता न विसरेल परोपकार,
बुडवले चाचे आणि गनीम,
नसतील आमचे किल्ले अप्रतिम!
माता पिता गुरूस मानले दैवत,

Tulasi

Ocimum tenuiflorum, commonly known as **holy basil** or **tulsi** or **tulasi**, is an aromatic **perennial** plant. Tulsi or Holy basil is a widely known herb in the family Lamiaceae. It is native to India and vastly cultivated throughout Southeast Asia. Tulsi has a special place in Ayurveda as well as the home of Hindus in India. It is considered sacred by Hindus and worshipped by them. Three main types of Tulsi are seen growing in India:

1. Bright green leaves called Ram Tulsi
2. Purplish green leaves called Krishna Tulsi
3. Common wild Vana Tulsi.

Tulsi has proved to be highly effective in protecting our body from various infections and diseases of the liver, skin, kidney, etc. It contains powerful oxidants that can help in keeping your blood pressure levels and cholesterol levels under control, making it one of the best **heart-healthy foods**. It is also good for diabetes as it possesses hypoglycaemic properties which are known to help lower blood sugar levels. It is recommended to include tulsi in your **diabetic diet plan**. Owing to its numerous health benefits, tulsi is rightly called the '**Queen of Herbs**'. Research suggests that tulsi may have anti-inflammatory properties, which can help reduce inflammation in the body. Tulsi may help lower blood sugar levels and improve insulin sensitivity in individuals with type 2 diabetes. It have adaptogenic properties, meaning it can help the body adapt to stress and promote overall well-being. The plant and its oil contain diverse phytochemicals, including tannins, flavonoids, eugenol, caryophyllenes, carvacrol, linalool, camphor, and cinnamyl acetate, among others.

Pharmaceutical Drugs

“A drug is A substance recognized by an official pharmacopoeia or formulary. A substance intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease. A substance (other than food) intended to affect the structure or any function of the body”. Or may be A drug is any chemical substance other than a nutrient or an essential dietary ingredient, which, when administered to a living organism, produces a biological effect. Consumption of drugs can be via inhalation, injection, smoking, ingestion, absorption via a patch on the skin, suppository, or dissolution under the tongue. In pharmacology, a drug is a chemical substance, typically of known structure, which, when administered to a living organism, produces a biological effect. A pharmaceutical drug, also called a medication or medicine, is a chemical substance used to treat, cure, prevent, or diagnose a disease or to promote well-being. Traditionally drugs were obtained through extraction from medicinal plants, but more recently also by organic synthesis. Pharmaceutical drugs may be used for a limited duration, or on a regular basis for chronic disorders. In English, the noun "drug" is thought to originate from Old French "drogue", possibly deriving from "droge (vate)" from Middle Dutch meaning "dry (barrels)", referring to medicinal plants preserved as dry matter in barrels. Pharmaceutical drugs are usually categorised into drug classes. A group of drugs will share a similar chemical structure, or have the same mechanism of action, the same related mode of action or target the same illness or related illnesses.

Food and Drug Administration (FDA)

The United States **Food and Drug Administration (FDA or US FDA)** is a federal agency of the Department of Health and Human Services. The FDA is responsible for protecting and promoting public health through the control and supervision of food safety, tobacco products, caffeine products, dietary supplements, prescription and over-the-counter pharmaceutical drugs (medications), vaccines, biopharmaceuticals, blood transfusions, medical devices, electromagnetic radiation emitting devices (ERED), cosmetics, animal foods & feed and veterinary products. The FDA's primary focus is enforcement of the Federal Food, Drug, and Cosmetic Act (FD&C). However, the agency also enforces other laws, notably Section 361 of the Public Health Service Act as well as associated regulations. Much of this regulatory-enforcement work is not directly related to food or drugs but involves other factors like regulating lasers, cellular phones. The FDA is led by the Commissioner of Food and Drugs, appointed by the President with the advice and consent of the Senate. The Commissioner reports to the Secretary of Health and Human Services. Robert Califf is the current Commissioner as of 17 February 2022. The FDA's headquarters is located in the White Oak area of Silver Spring, Maryland. The agency has 223 field offices and 13 laboratories located across the 50 states, the United States Virgin Islands, and Puerto Rico. In 2008, the FDA began to post employees to foreign countries, including China, India, Costa Rica, Chile, Belgium, and the United Kingdom.
